TWESD

TWESD'2024 Competition
Call for Participation
24 June 2024

COMPETITION

TWESD'2024 - IoT Competition

❖ This competition aims to explore the intersection of smart systems and IoT technologies, fostering innovation and promoting the utilization of platforms such as Arduino, ESP32, Raspberry Pi, and STM32.

❖ IoT competition in TWESD'2024 seeks to address challenges faced by the scientific community across various domains:

- *Autonomous systems*
- *Computer vision applications*
- *Blockchain Integration*
- *Unmanned systems*
- *Robotics*
- *Environmental Monitoring*
- *Smart City/Agriculture/Industry*

RULES

✓ A working prototype is mandatory
✓ Preselected projects will be invited to *be presented in TWESD'2024.*

❖*A participation certificate will be issued to each candidate*
❖*Valuable prices will be awarded to the first 3 winners*
